

IMAGinING RIFTING 19'

20-25 October 2019, Biarritz, France

IMAGinING RIFTING Workshop - Season 2 - *First Circular*

Website : http://mandu-geology.fr/?page_id=31

Dear colleagues,

After the success of the first edition in September 2017, we are pleased to announce that the second **IMAGinING RIFTING workshop** will be held in Biarritz (France) from Sunday October 20th (evening) to the 25th (mid-day) 2019.

Following the philosophy of the previous workshop, this second edition also aims at gathering cutting edge Earth scientists in a pluridisciplinary meeting on rifted margins, rifting processes and extensional settings more generally.

Gathering geologists and geophysicists from both Academy and Industry, this meeting aims to trigger discussions that are at the forefront of the present-day research. Detailed information can be found and will be updated on a dedicated webpage [here](#).

Program

The workshop will be **open to 45 participants max**. In addition to invited keynote speakers, other geoscientists will be welcome to attend the workshop through a short contribution (short 3-5' talks and/or poster).

The workshop will be articulated around:

1. Keynote presentations on key topics triggering current research on rifting processes (mechanisms of lithospheric thinning, rift-to-drift processes, magmatism, sedimentation, thermal evolution...),
2. Discussion sessions / roundtables between all participants,
3. Field trips in the nearby Mauléon and Basque-Cantabrian inverted hyper-extended rift Basins.

IMAGinING RIFTING 19'

20-25 October 2019, Biarritz, France

A [provisional program](#) and a list of [keynote speakers](#) are available online and will be updated in the next few days.

Fees

A fee of **235€/day for 5 days (1175€ VAT included)** is estimated that would cover:

- Hotel **full board** from 20th dinner to 25th lunch, at the [Radisson Blu Biarritz](#).
- Conference room booking,
- Field trip organization and field guide prints.

An Ocean view room option can be proposed on demand with an extra fee of +35€/night, total: 1350€).

Payment may be done after your application is accepted by wire transfer in EUR. Invoices will be delivered when transfer is completed and can be considered as a firm confirmation of your registration.

Application & Registration

As **45 participants only** will attend this workshop, we kindly ask you to use the application form before final registration. In this application, each participant should propose a provisional title and 2-3 sentences describing his contribution as a poster and/or a short 5' talk format to actively contribute to the discussions. Given the restricted number of participants, a selection might have to be done as a function of the proposed contributions and to preserve a fair diversity of institution/companies. Then, a **first-come, first-served basis** will be applied on the received applications.

Application deadline is set up for March 12, 2019.

The application form is available online [here \(http://mandu-geology.fr/?page_id=142\)](http://mandu-geology.fr/?page_id=142)

More details on the workshop webpage

Further information is available and will be updated progressively on the dedicated webpage of the IMAGinING RIFTING Workshop: http://mandu-geology.fr/?page_id=31.
